

Climate- and Biodiversity- Smart Forest Management

Field visit

Latvia

29.05.2025

Develop and implement innovative forest management that:

- adapt to future climate conditions
- enhance biodiversity
- balance societal expectations

Science exploration

Legislation &
certification
scheme analysis

Pilot testing

Evaluation &
Suggestions of
improvements

Latvian Forests

Forest ownership in Latvia

- Forests cover 3.45 million ha in Latvia. Ingka in Latvia owns ~102 000ha

Forest land by category

Treese species distribution (by dominant specie) in Latvia

Ingka Forests in Latvia

Forest Site 1

Property: Mieri

● Meeting point

Forest Site 2

Properties: Dārziņi 4 and Lapinas

● Meeting point

Locations

Suggested route to 2nd site:
